### Objectives:

- ◆ Create a basic understanding of terrorism.
- ◆ Understand the terrorist actions of extremist groups
- ◆ Understand the tactics, strategies and weapons of terrorists

## Program Overview

Counter-terrorism refers to the practices, tactics, and strategies that governments, militaries, and other groups adopt in order to fight terrorism. Counter-terrorism is not specific to any one field or organization; rather, it involves entities from all levels and aspects of society. For instance, businesses have security plans and often share commercial data with government agencies. Local police, firefighters, and emergency medical personnel ("first responders") have developed plans for dealing with terrorist attack. Armies conduct combat operations against terrorists, often using special forces units and tactics. Building a counter-terrorism plan involves all segments of a society or many government agencies working together in cooperation.

The need for continuing education in areas such as counter-terrorism is well recognized by the security community. Training is a critical component in the fight against terrorism and an integral part of risk management. Arming law enforcement, military, security staff, first responders, personal protection professionals and others with timely information about counter-terrorism enhances their ability to combat terrorism in general. The challenge is to make it effective and economic for mass distribution among key personnel. Difficulties in the counter-terrorism field have arisen due to the lack of timely and economical course materials that provide basic fundamental knowledge about terrorism, strategies, tactics and weapons. The development of our Counter-Terrorism Program addresses these and other issues at hand.

Our program consists of 12 modules that take approximately 1 1/2 hours to complete. The modules are \$99.95 each and are ordered via the **Spy-Ops** web-site, delivered via CD or an e-mail that contains all necessary materials in Adobe Acrobat format (PDF). Once completed, the participant takes a comprehensive exam and submits it for scoring. If successful they receive a Certificate in Counter-Terrorism. The tangible benefits of continuing professional education include career advancement, professional recognition, personal safety, job security and the list goes on. Additionally, our product offering includes fifty-two individual briefs to support the specific interests of our customers. We will also create custom training briefs and on-site programs upon request.

**Terrorism is now a foreseeable risk. Failure to properly train security personnel, staff and other can result in liabilities for organizations. Order Now!**

# Counter-Terrorism

## Quote

“With the (**Spy-Ops**) training brief segments on Improvised Explosive Devices, Biological Warfare, Chemical Warfare, and Terror related material I must say that the information has really been a great addition to what I’ve learned from my agency. **The (Spy-Ops) briefs provided contained exactly what I wanted to know**, the way it has affected us, and either technological or current methods to resolve these complicated issues.”
