13. Smuggling Warfare
14. Technology Warfare
15. Terrorism - Strategies & Tactics
16. Gang Warfare
17. Improvised Explosive Devices

Program Objectives:

- ◆ Introduce the concept of Unrestricted Warfare
- ◆ Explore the multiple modalities of Unrestricted Warfare
- ◆ Illustrate the numerous ways an enemy can attack their target

Program Overview

A new emerging area of conflict is called Unrestricted Warfare or URW. Spy-Ops has developed a series of training briefs to educate multiple industry disciplines on this type of warfare. This new range of options combined with the escalating cost (both political and financial) of waging traditional warfare has resulted in the rising dominance of the new alternatives to traditional military action. Anyone that does not heed these warnings is placing themselves, and the organization or country that they are affiliated with at great risk.

Modern combat techniques look to weaken an adversary's ability to wage war. These indirect methods of attack were first defined in "Unrestricted Warfare," a book published in China in February 1999 which proposes tactics for developing countries, to compensate for their military inferiority during a high-tech war.

FACT: The face of conflict has changed as technology has evolved. New technology brings new weapons and threats that must be understood before they can be countered.

Our program consists of 17 modules that take approximately 1 1/2 hours to complete. The program sells for \$159.95 and can be ordered via the **Spy-Ops** web-site, delivered via CD or an email that con-

tains all necessary materials in Adobe Acrobat format (PDF). Once completed, the participant takes a comprehensive exam and submits it for scoring. If successful they receive a Certificate in UnRestricted Warfare. The tangible benefits of continuing professional education include career advancement, professional recognition, personal safety, job security and the list goes on. Additionally, our product offering includes seventy-five individual briefs to support the specific interests of our customers. We will also create custom training briefs and on-site programs upon request.

UnRestricted Warfare is an alternative to bombs and bullets.
