Program Objectives:

- ◆ Understand current threats facing individuals today
- ◆ Learn personal asset protection and technology protection methods
- ◆ Understand a threat protection system: Awareness, Avoidance and Defense

Program Overview

Personal protection is critical in today's society. Home invasions, assaults, rapes, kidnappings, extortion, car-jackings are all too common in today's news headlines. Individuals must take steps to reduce the risk of becoming a victim to these crimes. Today you have about a 1 in 100 chance of becoming a victim of a violent crime. Many individuals rely on self defense courses as the way they choose to prepare. Personal protection is a broad area that covers everything from hand-to-hand combat, martial arts and the use of weaponry to the use of alarms and evasive driving techniques and many areas in-between. The personal protection for individuals program provides a high-level introduction to personal defense and offers two important concepts central to any personal protection program. The concepts are "defense in depth" and the three stages of personal protection: awareness, avoidance and defense.

This program is for those who are curious, have an interest in the field of providing personal protection, or in learning ways to protect themselves in their everyday lives. By taking this course you will learn some of the most cutting edge information regarding threats to individuals as well as the best practice methods for protection. The program is also a great step towards learning more about the protective services industry.

The Personal Protection for Individuals program consists of 10 modules that take approximately 1 1/2 hours to complete. The program sells for \$99.95 and can be ordered via the **Spy-Ops** web-site, delivered via CD or an email that contains all necessary materials in Adobe Acrobat format (PDF). Once completed, the participant takes a comprehensive exam and submits it for scoring. If successful they receive a Certificate in Personal Protection. The tangible benefits of continuing professional education include career advancement, professional recognition, personal safety, job security and the list goes on. Additionally, our product offering includes over 70 individual briefs to support the specific interests of our customers. We will also create custom training briefs and on-site programs upon request.

FACT: Today, over 80% of women and nearly 70% of men believe they are living in the most dangerous time of their lives!

Personal Protection

Quote

“The Spy-Ops personal protection training program for business executives empowered and prepared me so I can avoid potentially dangerous situations. As a petite female, business executive, the techniques and advice allows me to know how to react to different life threatening scenarios if they cannot be avoided. The program stressed that you do not have to be physically stronger than your attacker is, but you must know how to react quickly in order to save your life.”
